

The Mission of the ABNS is to improve public health care by developing and executing a sequence of certification activities to improve and maintain the educational and professional standards of neurological surgery. The broad aim of the ABNS is to encourage the study, improve the practice, elevate the standards, and advance the science of neurological surgery, and thereby to serve the cause of public health.

ABNS Welcomes two new Directors!

Dr. Randy Jensen (top)

Residency Program Director, Professor of Neurosurgery, & Adjunct Professor in Oncological Studies & Radiation Oncology at the University of Utah

Dr. Cargill Alleyne (bottom)

Dr Alleyne is a staff neurosurgeon at University Hospital in Augusta, GA. He is the former Chair, Professor of Neurosurgery & Residency Program Director at the Medical College of Georgia at Augusta University

ABNS Recognition of Focused Practice

PEDS, NCC, CNS Endo)

*As part of our commitment to you, our diplomates, the ABNS is excited to share that by completing any of the **2021 annual learning tools (part of the annual CC program)** there is an opportunity to earn more CME credits than years prior without an increase in cost.*

Interested in getting more involved with the ABNS?

ABNS.org

Two opportunities are available:

1. Develop a question that could be used in an ABNS exam or learning activity.
2. Interested in becoming an ABNS Guest Examiner? Submit an application.

Send an email to ABNS@ABNS.org to gain access to the question submission form or guest examiner application .
